

# DIAGRAM 1: Project Setup & AI Verification

---

**Purpose:** Shows how users onboard, purchase required subscriptions, define highly technical projects using AI, and verify their expert capabilities using LLMs.

## 1. ACTORS

### Primary Actors (Left Side):

- **User** (Base Actor)
  - **Client** (Inherits from User)
    - **CLIENT / CEO** (Inherits from Client)
    - **CLIENT / TECH\_TEAM** (Inherits from Client)
  - **EXPERT** (Inherits from User)

### Secondary Actors (Right Side):

- **Anthropic Claude API** (The AI Engine)
  - **SePay Payment Gateway** (For Wallet Top-up)
- 

## 2. BASE ACCOUNT & SUBSCRIPTION USE CASES

- **Top Up Wallet via VA (UC02)**
    - **Actors:** User, SePay Payment Gateway
  - **Purchase Subscription (UC03 / UC14)**
    - **Actors:** User
    - **Relationship:** ---<<include>>---> Top Up Wallet via VA (Because phải balance to buy the sub)
  - **Manage Dual-Role Account** (Combines UC-DR1 & UC-DR2)
    - **Actors:** User
- 

## 3. CLIENT FLOW: AI Elicitation & Project Intake

- **Submit Project via AI Elicitation Engine (UC01)**
    - **Actors:** CLIENT / CEO, Anthropic Claude API
    - **Relationships:**
      - ---<<include>>---> Run Automated Quality Gate (System always validates the final spec)
      - ---<<include>>---> Purchase Subscription (Guard: Must have Pro tier to use AI)
  - **Complete Tech Team Architecture Handoff (UC01t)**
    - **Actors:** CLIENT / TECH\_TEAM
    - **Relationship:** ---<<extend>>---> Submit Project via AI Elicitation Engine (Condition: Infrastructure threshold crossed)
-

- **Proceed via Tech Discovery Pathway - Scenario A (UC01a)**
    - **Actors:** CLIENT / CEO
    - **Relationship:** ---<<extend>>---> Submit Project via AI Elicitation Engine  
(Condition: No Tech Team exists)
  - **Complete Stage 4 as Self-Technical - Scenario B (UC01b)**
    - **Actors:** CLIENT / CEO
    - **Relationship:** ---<<extend>>---> Submit Project via AI Elicitation Engine  
(Condition: CEO is technical)
- 

#### 4. EXPERT FLOW: Profile Creation & AI Verification

- **Create Taxonomy-Based Profile (UC13)**
    - **Actors:** EXPERT
  - **Submit Portfolio Evidence for LLM Auto-Verification (UC15)**
    - **Actors:** EXPERT, Anthropic Claude API
    - **Relationships:**
      - ---<<extend>>---> Create Taxonomy-Based Profile (Condition: Expert wants Tier 2 upgrade)
      - ---<<include>>---> Purchase Subscription (Guard: Must have Expert Pro to use AI verification)
  - **Request & Complete Scenario Assessment (UC16)**
    - **Actors:** EXPERT, Anthropic Claude API
    - **Relationships:**
      - ---<<extend>>---> Create Taxonomy-Based Profile (Condition: Expert wants Tier 3 upgrade)
  - **Publish AI Service Listing via AI Generator (UC18)**
    - **Actors:** EXPERT, Anthropic Claude API
- 

## DIAGRAM 2: Bidding & Negotiation

---

**Purpose:** Shows how experts evaluate matched projects, negotiate technical scope and pricing via the 4 non-linear Bid Surfaces, and how the CEO ultimately signs the NDA to unlock the hidden architectural blueprints.

### 1. ACTORS

**Primary Actors (Left Side):**

- **Client** (Base Actor)
    - **CLIENT / CEO** (Inherits from Client)
    - **CLIENT / TECH\_TEAM** (Inherits from Client)
  - **EXPERT** (Standalone Actor)
- 

## 2. PRE-BIDDING & SHORTLIST VIEW

- **View Artifact A and Expert Shortlist (UC04)**
    - **Actors:** Client (CEO and Tech Team)
  - **Browse Project Shortlist & Gap Map (UC19)**
    - **Actors:** EXPERT
  - **Surface A: File Spec Clarification Request** (*Expert asks a question before bidding*)
    - **Actors:** EXPERT
    - **Relationship:** ---<<extend>>----> Browse Project Shortlist & Gap Map (Condition: Expert needs more info)
  - **Surface A: Respond to Spec Clarification (UC05 / UC05t)**
    - **Actors:** Client (CEO and Tech Team)
- 

## 3. BID SUBMISSION & TECH REVIEW (Surfaces B & D)

- **Submit Structured Capability Bid (UC20)**
    - **Actors:** EXPERT
  - **Review Capability Bids & Flag Recommendations (UC06a)**
    - **Actors:** CLIENT / TECH\_TEAM
  - **Surface B: Request Bid Component Revision (UC06r)** (*Tech Team forces Expert to rewrite a specific part of the bid*)
    - **Actors:** CLIENT / TECH\_TEAM
    - **Relationship:** ---<<extend>>----> Review Capability Bids & Flag Recommendations (Condition: Tech approach is flawed)
  - **Surface B: Revise Specific Bid Component (UC20r)**
    - **Actors:** EXPERT
    - **Relationship:** ---<<extend>>----> Submit Structured Capability Bid (Condition: Revision Requested by Tech Team)
  - **Surface D: Override TECH\_TEAM Disapproval (UC06c)** (*CEO ignores the Tech Team's warning and forces the bid through*)
-

- **Actors:** CLIENT / CEO
  - **Relationship:** ---<<extend>>---> Approve Expert Selection (Condition: Bid state is TECH\_DISAPPROVED)
- 

#### 4. PRICE NEGOTIATION & FINAL SELECTION (Surface C)

- **Approve Expert Selection (UC06b)**
    - **Actors:** CLIENT / CEO
  - **Surface C: Propose Price Adjustment (UC06d)** (CEO haggles on price)
    - **Actors:** CLIENT / CEO
    - **Relationships:**
      - ---<<extend>>---> Approve Expert Selection (Condition: CEO wants cheaper milestone pricing)
      - ---<<include>>---> Accept / Counter / Decline Price Proposal (Expert MUST respond to the haggles)
  - **Surface C: Accept / Counter / Decline Price Proposal (UC20c)**
    - **Actors:** EXPERT
- 

#### 5. Connection & Dual Artifact Unlocking

- **Send Connection Request & Complete NDA (UC07)**
    - **Actors:** CLIENT / CEO
  - **Accept Connection and Access Artifact B (UC21)**
    - **Actors:** EXPERT
  - **Access Artifact B Post-Connection (UC07b)** (Tech Team can now see the shared vault too)
    - **Actors:** CLIENT / TECH\_TEAM
- 

## DIAGRAM 3: Milestone Execution & Escrow Payments

---

**Purpose:** Shows how money is escrowed via VietQR, how Experts manage their work using Sprints/DoD, how Scope Evolution is handled automatically, and how automated payouts and dispute resolutions occur without Admin intervention.

### 1. ACTORS

**Primary Actors (Left Side):**

---

- **User** (Base Actor)
  - **Client** (Inherits from User)
    - **CLIENT / CEO** (Inherits from Client)
    - **CLIENT / TECH\_TEAM** (Inherits from Client)
  - **EXPERT** (Inherits from User)

#### Secondary Actors (Right Side):

- **SePay Payment Gateway** (Handles Inbound QR payments & Outbound Chi Hộ)
- **Anthropic Claude API** (Handles Layer 1 Dispute Resolution)
- **Admin** (Read-Only Monitor)

## 2. ESCROW FUNDING & SPRINT PLANNING

- **Fund Milestone via Per-Milestone VA QR (UC08)**
  - **Actors:** CLIENT / CEO, SePay Payment Gateway
  - **Relationship:** ---<<include>>---> *Top Up Wallet via VA (Guard: If CEO chooses to fund from wallet instead of direct scan, balance is checked)*
- **Create Sprint Plan & DoD Checklist (UC23)**
  - **Actors:** EXPERT
- **Read Sprint Plan & Comment on Thread (UC13t)**
  - **Actors:** CLIENT / TECH\_TEAM
- **Submit Weekly Sprint Status Update (UC24)**
  - **Actors:** EXPERT

## 3. SCOPE EVOLUTION & ADD-ON PHASE (F8)

- **Submit Add-On Phase Brief with Causal Chain (UC26)**
  - **Actors:** EXPERT
  - **Relationship:** ---<<extend>>---> *Submit Weekly Sprint Status Update (Condition: Status is marked as SCOPE\_EVOLUTION blocker)*
- **Approve Add-On Phase - Tech Dimension (UC10t)**
  - **Actors:** CLIENT / TECH\_TEAM
- **Approve Add-On Phase - Budget Dimension (UC10)**
  - **Actors:** CLIENT / CEO
  - **Relationship:** ---<<include>>---> *Approve Add-On Phase - Tech Dimension (Guard: Tech Team MUST approve tech justification before CEO can approve budget)*

#### 4. DELIVERABLES, APPROVALS & AUTOMATED PAYOUT

- **Submit Milestone Deliverable (UC25)**
    - **Actors:** EXPERT
  - **Stage Pay-Gated Reasoning Documents (UC22)**
    - **Actors:** EXPERT
  - **Sign Off Technical Milestones (UC08t)**
    - **Actors:** CLIENT / TECH\_TEAM
  - **Approve Business/Budget Milestones (UC09)**
    - **Actors:** CLIENT / CEO
  - **Request Withdrawal to Bank Account (UC27)**
    - **Actors:** EXPERT, SePay Payment Gateway
    - **Relationship:** ---<<include>>---> Link Bank Account via Bank Hub (Guard: Cannot withdraw if bank account isn't linked)
  - **Link Bank Account via Bank Hub (UC17)**
    - **Actors:** EXPERT, SePay Payment Gateway
- 

#### 5. DISPUTES, REVIEWS & ADMIN MONITORING

- **File and Resolve Dispute (3-Layer Engine) (UC29)**
  - **Actors:** User, Anthropic Claude API, SePay Payment Gateway
  - **Relationships:**
    - ---<<extend>>---> Submit Milestone Deliverable (Condition: Client rejects the delivery)
    - ---<<extend>>---> Sign Off Technical Milestones (Condition: Tech Team rejects delivery)
- **Complete Post-Engagement Review (UC12a / UC12b / UC28)**
  - **Actors:** User
- **Monitor Platform Integrity & Escrow Ledger (UC-A2 / UC-A3)**
  - **Actors:** Admin
